About the Firm

Ware Fressola Maguire & Barber, established in 1921, is an intellectual property boutique based in Monroe, Connecticut, serving US and international clients in the protection of intellectual property around the globe. Our approachable and relatable attorneys pride themselves on providing clients and associates an individualized experience. Highly accessible and flexible to our clients' needs and work processes, we believe in direct and clear communication that ultimately provides clients with highly cost-effective specialist IP services.

✓ Patent Drafting and Prosecution

Our dedicated team of patent professionals offer a wide range of technical expertise, including chemistry, physics, electrical engineering, mechanical engineering, computer science, life science, and designs.

✓ Trademark Prosecution

We help clients secure their international brand rights. The USPTO's complex filing and examination process means our team relishes using their creativity and experience to solve problems, before they happen.

✓ IP Portfolio Management

Once registered, clients feel calm and secure as we ensure their portfolios are kept up-to-date by preparing trademark declarations of use and renewals, and patent maintenance worldwide.

✓ Opinions and Dispute Resolution

We provide opinions and risk assessments prior to product launch, and when problems arise, our IP specialists work collaboratively, bringing their joint knowledge to bear.
